

Profile:-

The saying, “Roti, kapda, aur makaan”, got an imperative extension couple of decades ago when IT started playing a decisive role in our day-to-day life. IT has come a long way in probably the shortest span of time, compared to several other innovations man has made possible in the twentieth century.

Comprompt feels proud to be a part of this crucial industry for more than 20 years now, and serving a whopping 1,000 clients across industries and domains to meet their IT services, security solutions and related needs. For Comprompt, IT’s lifelogy, and nothing less. Being a trusted service provider for MSMEs to global conglomerates, Comprompt endeavors to offer its clients the best service, timely at the most competitive pricing. Being a partner of almost all leading global IT services and security solutions providers, Comprompt offers digital security for all online, offline, and network needs; data protection, security audit as well as VAPT, mail and messaging solutions, cloud services, web development, backup and storage solutions, and more. In a nutshell, think of IT services, think of Comprompt.

Vision:-

“We intend to safeguard every computer technology based device of our customers, with the help of evolving innovations, more secured platforms and unflinching service that gives them complete peace of mind. For, we believe that tech-savviness today is a way of life!

Mission:-

“Comprompt is an IT-based world that has always remained constant in accepting change and making future more secured. From primary PCs to powerful handheld devices, and from floppies to cloud computing, we has made an indelible mark in complex, challenging and exciting world of computer-turned-web technology. Be it domain hosting or email solution, or antivirus, Network Security or enterprise mobility, every action taken to pamper and protect a device is our sincere contribution towards improving way of life of people in general and our partners, customers, employees and our environment in particular. We also eagerly envisage a safe, secured tomorrow for all. For, the world revolving around binary language-driven instruments, we want to be an instrumental partner of a shining future!

Secure Code Practices

Computer software are prone to vulnerabilities. Even a small bug in the software can make it vulnerable, but with us you will be secure.

Network Security

Network security is a technique which safeguards the networking infrastructure from illegal access, malfunction, misuse, destruction, alteration, or improper disclosure.

Application Security

Today, most of the organizations are reliant on software application development to deliver them competitive edge. on other hand giving richer user experience with security is our job.

Vulnerability Assessment and Penetration Testing [VA/PT]

National Cyber Security Policy- 2013 (clearly states that the organization must have Vulnerability Assessment and Penetration Testing (VA/PT) done on a regular basis and we are best in it.

Information Security (IS) Audit

Govt Of India, under the National Cyber Security policy-2013 has stated that IS audit is mandatory for any organization.

SSL Certificates

A digital certificate is an electronic “credit card” that establishes your credentials when doing business or other transactions on the Web. It is issued by a certification authority (CA). It contains your name, a serial number, expiration dates, a copy of the certificate holder’s public key (used for encrypting messages and digital signatures), and the digital signature of the certificate-issuing authority so that a recipient can verify that the certificate is real.

Corporate Social Responsibilities

<http://www.drishtifoundation.in/>

Once I knew only darkness and stillness. My life was without past or future. But a little word from the fingers of another fell into my hand that clutched at emptiness and my heart leaped to the rapture of living. - Helen Keller

This Diwali bring light to the lives of those who never had opportunity to see the light. Buy diyas from Drishti Foundation and bring home the true blessings. When you buy diyas from Drishti Foundation the money that you spend will go to the cause of education and employment of visually challenged people in India. These beautiful diyas are designed by volunteers and the well wishers of Drishti Foundation. Give their efforts a true meaning, celebrate the Festival of Lights by bringing light to those who do not have sight.
